Portfolio

bencepentek.com

Language

English B2 (proficient in speaking and understanding)

Education

Szegedi Tudományegyetem Juhász Gyula Pedagógusképző Kar (SZTE JGYPK)
 (Software Information Technology)

Debreceni SZC Beregszászi Pál Technikum
 (Software Developer)

Experience

NOVIN INFORMATIKA
PHP DEVELOPER (REMOTE)

I have one year of relevant experience in which I focused on Symfony API development, including debugging, API documentation creation, and Doctrine unit testing. I also worked on projects involving JavaScript and jQuery. In one project, I took on a full stack developer role, actively using Symfony and JavaScript. Additionally, I have experience in Docker setup and configuration.
